OBJECTIVE

Ambitious and detail-oriented Web Development enthusiast currently in the 6th semester at Bahria University Karachi, pursuing a degree in BSCS. Demonstrated proficiency in HTML, CSS, JavaScript, and Bootstrap. Adept at translating creative concepts into functional websites and applications. Eager to contribute technical skills and passion for innovative solutions in a web developer role.

PROJECTS

Portfolio Website   View in GitHub

- Developed a sophisticated portfolio website using HTML, CSS, and JavaScript to present a comprehensive showcase of skills and completed projects.
- Ensured a seamless user experience with responsive design principles, allowing for optimal viewing on various devices.

Quote Generator   View in GitHub

- Integrated an external API to generate random quotes, developing a clean and minimalistic user interface with HTML, CSS, and JavaScript.
- Focused on creating a seamless experience with responsive design, allowing users to access and enjoy thought-provoking quotes on various devices.

Online Cake Shop   View in GitHub

- Created an e-commerce website for ordering cakes, utilizing HTML, CSS, JavaScript, and Bootstrap to deliver an intuitive and visually appealing platform.

- Implemented a dynamic product catalog, shopping cart functionality, and checkout process for a seamless user experience.

Weather App   View in GitHub

- Integrated a third-party API to fetch real-time weather data, creating a user-friendly weather application using HTML, CSS, and JavaScript.
- Designed an intuitive interface to display current weather conditions and forecasts for user-specified locations.

Facebook Clone   View in GitHub

- Designed and implemented a functional Facebook clone using HTML, CSS, and JavaScript, incorporating key features of the social media platform.
- Ensured an engaging user interface with interactive elements, providing a realistic social networking experience.
